

INTERNSHIP GURU

InternshipGuru places students in international internships and placements. Our aim is to provide students with life skills and amazing experiences to help them with their own personal development. We have partnered with Paragon Europe which has 14+ years experience in providing excellent work placements in Malta.

In this current employment climate, it is essential that students build a work experience portfolio as with more students than ever attending university, students can no longer rely on just their degrees. But why work a summer in your local supermarket when your child can gain relevant international work experience?

BENEFITS OF INTERNATIONAL WORK EXPERIENCE ARE:

- More valuable to employers as it demonstrates adaptability
- A chance to gain more independence and maturity before beginning university
- Experience different cultures and develop cultural awareness
- Enhance your CV
- Improve your communication and language skills
- Build confidence and develop self-reliance
- Develop independence
- Gain new qualifications and improve your professional skills
- Learn a new language
- Impress employers with your initiative and adaptability
- Learn new working styles and build international networks

As parents/guardians you always want to provide the best possible opportunities for your child. InternshipGuru's Career Bridge Programme does just that. During that all important summer after finishing their A-levels and before beginning university, we immerse students into a new country and culture for 4 weeks of tailored, solid work experience in their specific chosen field. InternshipGuru works with over 4,000 companies in Malta across numerous fields.

But it doesn't stop there! Though we want our interns to get the most valuable work and cultural experience, we also want them to have fun while doing so. This is an experience of a lifetime. Every weekend we have different supervised excursions available for your child to experience, ranging from rock climbing, quad biking to snorkelling and scuba diving.

The programme encourages your child to become independent. It is a semi supervised programme where their time is their own. They will be in charge of their everyday lives which includes getting to work on time, cooking for themselves, socialising and arranging their own schedules. However, there will be frequent staff check-ins and staff will be on call 24/7 to ensure their wellbeing.

Once the summer placement is complete, each student will receive a written reference from the company they worked in as well as a reference and certificate from InternshipGuru.

FOR A FEE OF £4,000 YOUR STUDENT WILL RECEIVE THE FOLLOWING:

- A stimulating work placement in their chosen field
- Accommodation
- Return flights to Malta
- Airport transfers from school
- All weekend excursions and networking events
- A bus pass
- A money travel card which can be preloaded
- Comprehensive insurance
- Excursions
- Networking events
- FairFX travel card pre loaded with £50 per week food budget
